Mineral Mining | Pakistan | Afghanistan | Iran |
Pink Salt | Talc | Caf₂ | Chromite Ore

Our Story

Started in 1988 and Now, Established

Three decades ago, Mr. Muhammad initiated Pakmines International with a simple thought: to produce high-quality Himalayan Salt for human consumption and distribute it across Pakistan, catering to both customers and businesses. This vision aimed not only to grow business possibilities but also to enhance the quality of life through the unmatched benefits of Himalayan Salt.

To bring this vision to life, Pakmines International embarked on a comprehensive journey, encompassing mining, manufacturing, wholesaling, retailing, and distribution of a diverse range of salt products. Our offerings span from mineral-rich edible pink salts to elegant salt lamps, cooking slabs, and therapeutic bath salt chunks.

Our journey began in 1988 with a few dedicated members and a single workshop in Karachi. Over these three decades, we have built a reputation for having the widest collection of Himalayan Salt products. Today, we proudly operate three factories and 8 mines in Pakistan, 13 mines in Afghanistan/Iran, exporting 95% of our products to over 70 countries worldwide.

In the global market, we are recognized as an International Quality Standard certified manufacturer, frequently consulting with the Pakistan Council of Scientific and Industrial Research (PCSIR) team to maintain premium quality in product manufacturing and packaging.

Pakmines International is regarded as one of the leading wholesalers and bulk suppliers of Himalayan Salt in Pakistan, utilizing advanced techniques and an extensive supply chain network across the globe. In recent years, we have manufactured and supplied a wide range of products, including:

- Rock salt floor tiles, including the Soluble Salt Series
- Himalayan Natural Salt Lamps
- Animal Lick Blocks
- Tiny USB Salt Lamps
- Natural and designed candle holders
- Therapeutic salt stones
- Himalayan Rock Salt cooking tiles and plates
- Salt bricks for constructing salt caves and salt spa rooms for health and wellness
- Salt granulates
- Fine table salt
- Salt pipe inhalers
- Physiotherapy balls
- Rock salt chunks

If you have any requirements, we invite you to connect with us. We are eager to form business relationships with retail and distribution companies, as well as individual customers, throughout the global market.

Our Vision

To produce and distribute the highest quality Himalayan Salt and other minerals globally, enhancing lives through their unmatched benefits, while committing to excellence, sustainability, and continuous innovation.

Our Mission

To mine, manufacture, and distribute premium Himalayan Salt and other minerals, ensuring superior quality and customer satisfaction. We aim to expand our global reach, uphold sustainable practices, and continuously innovate to meet the evolving needs of our clients and enhance their well-being.

Chairperson’s Note

Over three decades ago, in 1988, we established Pakmines International with a singular purpose: to extract and share the pure, unfiltered Himalayan Salt initially to meet local needs, and subsequently to export it to the world. Our country is blessed with one of the most abundant and pristine sources of this unique mineral, and it has always been our unwavering vision to bring the unparalleled benefits of Himalayan Salt to a global audience.

From the very beginning, our mission has been straightforward yet ambitious: to produce and distribute high-quality Himalayan Salt products across the globe, catering to both individual consumers and businesses. Our commitment to excellence ensures that we deliver only the finest quality salt, mined with care and dedication. We take immense pride in not only meeting but exceeding the expectations of our customers, consistently providing them with products that guarantee complete satisfaction.

Our journey has been marked by a relentless pursuit of excellence. We have always set high goals for ourselves, striving to achieve them with determination and setting new benchmarks as we progress. This commitment to continuous improvement and innovation is what drives us forward.

In addition to our Himalayan Salt endeavors, we are a comprehensive mineral mining company operating in Pakistan, Iran, and Afghanistan. We are proud to be one of the largest exporters of Soap Stones/Talc, Chromite, and Fluorite/CaF2. Our status as a Green Channel Exporter further underscores our dedication to sustainable and efficient practices.

As we look to the future, we remain dedicated to our core values and the vision that has guided us since our inception. We are immensely grateful for the support and trust of our customers and partners, and we look forward to your continued feedback and encouragement. Together, we will continue to scale new heights, bringing the unmatched benefits of Himalayan Salt and other minerals to every corner of the globe.

Thank you for being an integral part of our journey.
